Summary

Backend developer with hands-on internship experience building REST APIs and AI-integrated services utilising Node.js, Express.js, and SQL. Proficient in JavaScript and Python, with published machine learning research (SCITEPRESS 2026). Focused on writing clean, production-ready code and shipping features that work at scale.

Education

Institute of Aeronautical Engineering

B.Tech, Computer Science and Engineering

CGPA: 8.0/10

Nov 2021 - May 2025

Skills

Languages: JavaScript, Python, TypeScript

Frontend: HTML, CSS

Backend: NodeJS, ExpressJS, REST APIs, JWT Authentication

Databases: PostgreSQL, MySQL, MongoDB, Redis

Tools: Git, GitHub, Postman

Cloud: AWS (EC2)

Methodologies: Agile, CI/CD

Work Experience

8MH Organic – Backend Intern (Remote)

Mar 2025 – Jun 2025

- Developed secure backend services using Node.js and Express.js
- Designed and integrated SQL databases.
- Integrated an AI chatbot which uses NLP to communicate with users and make changes to the website.

Projects

Real-Time Chat API | [Link](#)

Jan 2026 - Mar 2026

- Built a scalable real-time messaging backend using ExpressJS, Socket.IO and Redis
- Designed a room-based chat system with PostgreSQL persistence via Prisma ORM.
- Integrated Redis pub/sub for scaling WebSocket connections across multiple instances.

User Management API | [Link](#)

July 2024

- This is a user management API which consists of all API requests that can be sent to the user using Postman.
- In this, each API request is authenticated using JWT.
- The testing was done by using Jest and Supertest tools.

FullStackTodo | [Link](#)

Feb 2024 - Mar 2024

- This is a full-stack Todo app using JWT (JSON Web Tokens) for authentication.
- Users can create an account and make their to-do list.
- Users can apply multiple operations

Publications

- A Personalized Healthcare Model for Air Pollution Monitoring and Prediction Using Machine Learning – SCITEPRESS (2026) | [Paper](#)

Professional Certifications

- Developing Back-End Apps with Node.js and Express – IBM (2025) | [Link](#)
- Database Design and Basic SQL in PostgreSQL - University of Michigan (2025) | [Link](#)
- Cloud Computing and AWS Fundamentals - Udemy (2024) | [Link](#)
